HOW TO IMPROVE STUDENT ENGAGEMENT

1

USE DIFFERENT TEACHING METHODS

If teachers always use the same teaching method, their students will not be interested. Use 7 teaching methods to engage your students and present content in different ways.

2

ALLOCATE THE CLASS TIME TO GETTING TO KNOW YOUR STUDENTS

Use class time occasionally to get to know your students. When they get to know you, they will know more about the subjects.

3

MERGE TECHNOLOGY INTO THE CLASS

Students, students like using to study using technology. By introducing technology in the class, students can enjoy and absorb the content. Technology helps to make learning more fun.

4

USE PROJECT-BASED LEARNING

When students are working together with their classmates, they will be more interested. Use project-based learning to make learning more fun and to make learning more effective.

5

PLAY SOME LEARNING GAMES IN CLASS

Use learning games in the class to make learning more fun. Use learning games in the class to make learning more fun and to make learning more effective.
